## FEATURES OF INHAMBANE PROVINCE

Inhambane is located in the southern part of Mozambique

**To the North:** Save River, Sofala and Manica province

**To the South and Southeast:** Gaza province; and

**To the East:** Indian Ocean.

**Administration areas:** 14 Districts, 26 Administration Areas , 70 Localities

**Municipalities:** Inhambane, Maxixe, Quissico, Massinga and Vilankulos

### Climate

Tropical humid on the coast; and

Tropical dry in the interland

Two seasons across the year:

Dry (cool, temperatures ranging between 22º and 26º from May to October).

Rainy (hot, average temperature: 34º from November to April).

Relative air humidity ranging from 6% to 76%.

## GENERAL INFORMATION

Surface	68.615 Km2
Coast line	700Km
Population	1.523.635 inhabitants
Economically active population	761.605 inhabitants
Official language	Portuguese
Local languages	Xitswa, Bitonga, Chope, Ndaú
Population density	22,2 inhab/km <sup>2</sup>
Capital city	Inhambane
Available land	1.863.205,80 hectares
Potentially irrigable area	3.365,2 hectares
Operational Irrigation	1.803,7 hectares

## INFRASTRUCTURES

<b>Road Network</b>	
<b>Power network</b>	All District headquarters connected to the national power network
<b>Water</b>	Urban and peri urban access to drinking water: 84,5%
<b>Aerodromes</b>	Inhambane and Vilankulo
<b>Telecommunication</b>	All District headquarters are connected to the mobile and landline telephone network
<b>Transport</b>	Cargo and passenger transport at all levels between districts, provinces and international
<b>Ports</b>	<p>Inhambane Port            Depth: ranging from 3 to 7m            Capacity: 1.000 tonnes            Cargo handling capacity: 180 tonnes/day            Passenger handling capacity 5.000 passengers/day</p> <p>Vilankulos Port            Depth: ranging from 1 to 1,5m            Passenger handling capacity : 50 passengers/day            Cargo handling capacity: 4 tonnes/day</p>
<b>Banking and Insurance Institutions</b>	<p>Bank Services Coverage: 79%</p> <p>Banking institutions: Millenium Bim, Barclays, BCI, Socremo, Standard Bank, Mozabanco, Banco Terra and FNB.</p> <p>Microfinance institutions: Lethsego, Bayport and Ingwe Microfinanças</p> <p>Branches: 35 in 11 Districts</p> <p>Microcredit operators: 4 associations and cooperatives</p> <p>Insurance institutions: Empresa Moçambicana de Seguros (Emose), Global Alliance, Austral Seguros, Indico Seguros e Moçambique Companhia de Seguros</p>

## WHY INVESTING IN INHAMBANE?

<b>Agricultural Potential</b>	<p>Land available (ha): 1.863.205,8 hectares available for agricultural production            Potential irrigable: 3.365,2 hectares            Land in use: 537.362 hectares            Agricultural production: 2.440.158 tons/year            Major food crops: maize, rice, beans, peanut, sweet potatoes, cassava            Major cash crops: potatoes, pineapple, coconut, vegetables, diverse fruit.            Fruit production: 310.275 tons/year            Coconut production: 73.200 tons/year            Cashewnut production: 6.040,41 tons/year</p>
<b>Fishery products</b>	<p>Most common species are horse mackerel, sardines, stonefish, large eye dentex, xaréu, sawfish, barracuda, tuna, shark and others like shrimp, crab, lobster, squid and corals;            Potential for shellfish and marine aquaculture farming in the District of Inharrime and the Bay of Inhambane, with 4146.90 hectares for aquaculture in cages (fish and shrimp) and 2973.90 hectares for bivalves aquaculture;</p>
<b>Forestry products</b>	<p>53 304 hectares of forests with native species of great commercial potential: chanfuta, umbila, messessa, simbire.</p>
<b>Fauna Potential</b>	<p>Sanctuaries of wildlife: goats, buffaloes, antelopes, monkeys, elephants, wildebeest, changos, gazelles, wild boars, rabbits, zebras, kudus, hippos, ostriches and guinea fowl.</p>
<b>Mineral resources</b>	<p>Gas, heavy minerals, limestone, clay, gypsum, bat guano, diatomite, laterites</p>
<b>Tourism Potential</b>	<p>Sun and beach, gastronomic and cultural tourism, marine resources</p>

## GENERAL INCENTIVES

↪ Exemption from customs duties and value added tax on import of class “K” equipment

### ↪ Tax Credit

Province of Inhambane: 10%

↪ Vocational training: 5% deducted from IRPC taxable income

↪ Upgrading and introduction of new technology: 10% deducted from IRPC taxable income

## SPECIAL INCENTIVES

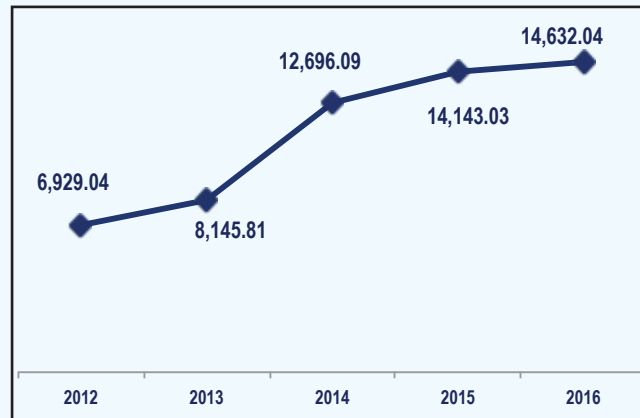

- ↪ Establishment of infrastructures;
- ↪ Trade and Industries in rural areas;
- ↪ Manufacturing and Assembling industries
- ↪ Agriculture and Fisheries;
- ↪ Industrial Free Zone;
- ↪ Special Economic Zones;
- ↪ Science and Technology Parks;
- ↪ Hospitality and Tourism;
- ↪ Major investment Projects
- ↪ Rapid Development Zones;

# AGRICULTURE/AGRIBUSINESS

## AGRIBUSINESS/AGROINDUSTRIES

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Rice chain development</b>	Cash production, seed and fertilizers distribution, construction of irrigation infrastructure, harvesting and post-harvesting equipment and agricultural machinery. Processing and credit industry with a potential area of 15,436.4 hectares	Guvuro, Massinga, Morrumbene, Homoine, Panda, Jangamo and Zavala	Private	5.000.000,00
<b>Production of cashewnut</b>	The project consists of the implantation of commercial plantations, purchase of inputs, equipment and buildings.	Panda, Homoine, Funhalouro, Morrumbene and Mabote	Private	1.300 000,00
<b>Cassava processing plant</b>	The Province has about 120,094 hectares of arable land for production of cassava in almost all districts, most notably in the Districts of Inharrime Zavala, Jangamo and Massinga. The project consists of the installation of cassava processing units (grinding, brewing and baking industries).	Inharrime, Jangamo, Zavala and Massinga	Private	1.000.000,00
<b>Cashewnut Processing Plant</b>	The Province is running a project for the production of about 265,000 seedlings intended for the restocking and promotion of cashew nut trees involving private and family sectors. The aim of the project is to install processing units of cashew nuts with an installed capacity of 2500 tons / day.	Mabote, Funhalouro, Panda, Homoine and Morrumbene	Private	240 000,00

## AGRIBUSINESS/AGRO INDUSTRIES

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Timber processing plant</b>	The Districts of Govuro, Funhalouro, Vilankulo and Mabote have potential for timber species. The annual exploration in the Province is estimated at 33,000 cubic meters. The aim of the project is to install industrial carpentry for the production of furniture from various timber species such as umbilla, chanfuta, missassa, sandalwood, jambire and simbire.	Mabote, Maxixe, Vilankulo and Funhalouro	Private	1.500.000,00
<b>Cow milk processing</b>	Install milk processing system from receipt; standardization; pasteurization; homogenization; storage and distribution. The aim is to boost the market of milk and its derivatives since the Province has a dairy herd of 20 Jersey breed cow in production	Inharrime	Private	48 276,00
<b>Meat and meat product processing and its derivate</b>	Install meat processing units with a slaughtering capacity of 10 cows/day.	Mabote, Massinga and Inharrime	Private	1.264.000,00
<b>Industrial slaughterhouse</b>	The investment involves the construction of a slaughterhouse, assembly of cooling system, purchasing slaughtering machines, packaging and distribution.	Zavala	Private	150 310,00
<b>Fruit production, trading and processing</b>	The province has potential in various fruit trees. The project shall consists of developing commercial orchards of mango, liches, orange and pineapple. In the case of liches there are plants on an experimental basis showing good productivity.	Inharrime, Massing, Morrumbene, Jangamo and Homoine	Private	1.200.000,00

## AGRIBUSINESS/AGRO INDUSTRIES

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Piri Piri Production and Processing</b>	The District of Inharrime has a production capacity of 12,000 tons/ year of piri-piri given to the existing agro-ecological conditions for this purpose, hence the need to install a processing unit to absorb the entire production.	Inharrime	Private	1.400.000,00
<b>Centres for Provision of Agrarian Services (CPSs)</b>	Establish a Centre for Provision of Agrarian Services, including the following components: Machine Park Unit, Technical Assistance, Petrochemical Providers, Conservation Infrastructure, Agro-Processing Units, Transport and Trading	Inharrime, Govuro, Massinga, Morrombene and Vilankulos	PPP	Under Assessment

## AGRIBUSINESS/HYDRAULIC INFRASTRUCTURES

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Construction of Paunde Irrigation System</b>	Construction of an irrigation system in an area of 1000 hectares , storage and control structures that can regulate the flow rates and ensuring retention of water capacity for the dry season, without causing environmental damage. The irrigation system is located in areas with potential for production of cereals (maize, rice) and vegetable. The system is expected to be run by private sector. The management of the irrigation system will be under the private sector.	Mabote	PPP	20.000.000,00
<b>Construction of Pambarra Irrigation System</b>	Construction of an irrigation system in an area of 400 hectares, storage and processing facilities. The irrigated land is located in areas with potential for production of corn, beans and vegetables. There is agronomic potential (soil and water) for commercial agriculture and a vast market (ordinary consumers and tourists) that can ensure the consumption of part of production. The management of the irrigation system shall be under the private sector.	Vilankulo	PPP	5.000.000,00
<b>Construction of Nhancoongo irrigation System</b>	There is 65 hectares of irrigation area and agro-ecological conditions, conducive for agriculture and livestock activities. This area has the potential for corn and vegetables production.	Inharrime	PPP	5.000.000,00
<b>Construction of Jofane irrigation system</b>	This irrigation system has a potential with the irrigation capacity of an area of 13 hectares and it may bring greater availability of water for irrigation of agricultural fields and cattle drinking facilities. This area is also potential for corn and vegetables production.	Govuro	PPP	800.000,00

## AGRIBUSINESS/HYDRAULIC INFRASTRUCTURES

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Rehabilitation of Mapie Irrigation System</b>	Rehabilitation of Mapie Irrigation System with an extension of 50 hectares through pump and tubing system, in order to boost agricultural production. This area has the potential for corn and vegetables production.	Vilankulo	PPP	750.000,00
<b>Rehabilitation of Macuamene Irrigation System</b>	Rehabilitation of Macuamene Irrigation System with an extension 100 hectares through a sub-irrigation system in order to boost agricultural and livestock production. This area has the potential for vegetables such as cabbage, onions and tomatoes.	Maxixe	PPP	1.750.000,00
<b>Rehabilitation of Munavalate Irrigation System</b>	Rehabilitation of Munavalate Irrigation System with an extension of 40 hectares through a pump and tubing system in order to boost agricultural and livestock production. This area has the potential for vegetables such as cabbage, onions and tomatoes.	Vilankulo	PPP	600.000,00
<b>Rehabilitation of Mahangue Irrigation System</b>	Rehabilitation of Mahangue Irrigation System with an extension of 120 hectares through a sub-irrigation system in order to boost agricultural and livestock production. This area has the potential for potatoes and vegetables such as cabbage, onions and tomatoes.	Morrumbene	PPP	1.200.000,00

## AGRIBUSINESS/HYDRAULIC INFRASTRUCTURES

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Rehabilitation of Furvela Irrigation System</b>	Rehabilitation of Furvela Irrigation System with an extension of 145 hectares through a sub-irrigation system, creating greater availability of water for irrigation of agricultural fields and cattle drinking. This area has the potential for cabbage, onions and tomato production.	Morrumbene	PPP	725.000,00
<b>Rehabilitation of Murie Irrigation System</b>	Rehabilitation of Murie Irrigation System with an extension of 200 hectares through a sub-irrigation system in order to boost agricultural and livestock production. This area has the potential of cabbage, onions, tomato and corn.	Massinga	PPP	1.000.000,00
<b>Rehabilitation of Ngomane Irrigation System</b>	Rehabilitation of Ngomane Irrigation System with an extension of 550 hectares through a sub-irrigation system in order to boost agricultural and livestock production. This area has the potential for vegetables such as cabbage, onions and tomatoes.	Massinga	PPP	2.750.000,00
<b>Rehabilitation of Chilácua Irrigation System</b>	Rehabilitation of Chilacua Irrigation System with an extension of 150 hectares through a sub-irrigation system in order to create greater availability of water for irrigation of agricultural fields and cattle drinking, and thus boosting agricultural production in the district. This area has the potential for cabbage, onions, tomatoes and corn production.	Massinga	PPP	1.750.000,00

## AGRIBUSINESS/HYDRAULIC INFRASTRUCTURES

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Rehabilitation of Chinginguire Irrigation System</b>	Rehabilitation of Chinginguire Irrigation System with an extension of 60 hectares through pump & tubing systems in order to boost agricultural and livestock production in this district. This area has the potential for the vegetables such as potato, cabbage, onion and tomato.	Homoíne	PPP	789.474,00
<b>Rehabilitation of Inhasune Irrigation System</b>	Rehabilitation of Inhasune Irrigation System with an extension of 100 hectares through pump and tubing systems in order to boost agricultural and livestock production in the district. This area has potential for vegetables such as potato, cabbage, onion and tomato.	Panda	PPP	1.315.790,00
<b>Rehabilitation of Mubique Irrigation System</b>	Rehabilitation of Mubique Irrigation System in an extension of 100 hectares through sub-irrigation system in order to boost agricultural and livestock production in the district. This area has potential for cabbage, onion and tomato.	Panda	PPP	1.500.000,00
<b>Rehabilitation of Mawaela Irrigation System</b>	Rehabilitation of Mawaela Irrigation System with an extension of 100 hectares through a sub-irrigation system in order to boost agricultural and livestock production in the district. This area has the potential for corn and onion production.	Panda	PPP	1.400.000,00

# FISHERIES AND AQUACULTURE

## FIHSERIES/AQUACULTURE

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Aquaculture production</b>	The investment consists of fish farming on earth ponds, cages and bivalve aquaculture. Potential areas: Exploration area of 4.146.90 hectares for net tanks (cages) and 2.973.90 hectares of exploration area for bivalve aquaculture.	Govuro, Inhassoro, Vilankulo, Massinga, Homoine, Morrumbene, Panda, Baia de Inhambane, Jangamo, Inharrime and Zavala	Private	1.500 000,00
<b>Production of Holoturias</b>	The investment consists in the cultivation of sea cucumber (holothuria argunensis) in marine waters and tanks of land	Vilankulos, Morrumbene, Inhassoro and Massinga	Private	Under Assessment
<b>Production of Bivalves</b>	The investment consists of cultivating mussels (leg-leg) in mariculture long-line systems. The potential area available for aquaculture of bivalves is 2,973.90 hectares.	Baía de Inhambane	Private	Under Assessment

## FISHERIES/AQUACULTURE

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Production of Lobster</b>	The investment consists on creating lobster in net tanks (cages). Potential area available for tanks networks (Cages): 4,146.90 hectares;	Inharrime, Jangamo and Maxixe	Private	Under Assessment
<b>Crab production</b>	The investment consists in the creation of crab in land tanks. Potential area available for land tanks: 196 330.51 hectares	Vilankulos, Govuro and Inhambane	Private	Under Assessment
<b>Production of fish in marine waters (Grouper)</b>	The investment consists in the creation of grouper fish in marine or estuarine waters in a network tanks system (cages). Potential area available for tanks nets (Cages) 4146.90 hectares	Govuro, Inhassoro and Jangamo	Private	Under Assessment
<b>Production of fish in inland waters (Cat-Fish)</b>	The investment consists in the creation of cat-fish in land tanks. Potential area available for land tanks: 196,330 51 hectares	Panda, Maxixe and Inharrime	Private	Under Assessment

## FISHERIES/AQUACULTURE

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Production of Tilapia fish in inland waters</b>	The investment consists in the creation of Nilótica Tilapia fish or Mussambica and Red Tilapia in tanks land and tanks-net. Potential area available for land tanks: 196,330.51 hectares. Potential area available for network tanks: 120,900.62 hectares	Inhassoro, Vilankulo, Massinga, Homoine, Morrumbene, Panda, Baia de Inhambane, Jangamo, Inharrime and Zavala	Private	Under Assessment
<b>Installation of Catfish Fingerling Production Unit</b>	The aim of this project is to establish a Catfish Fish Fingerlings Production Unit	Maxixe, Jangamo, Panda and Inharrime	Private	Under Assessment
<b>Installation of Tilapia Fingerling Production Unit</b>	The aim of this project is to establish production units for tilapia (Nilotic, or Mussambica and Red Tilapia) fingerlings	Maxixe, Jangamo, Panda and Inharrime	Private	Under Assessment
<b>Installing a fish feed production plant</b>	The aim of this project is to install an industrial fish feed production unit	Vilankulos and Jangamo	Private	Under Assessment
<b>Construction of fishing support units</b>	The project aims to build infrastructures for the construction, maintenance and repair of boats, marketing of engines and other accessories	Govuro, Inhassoro, Vilanculos, Massinga, Jangamo and Zavala	Private	3.000.000,00
<b>Installation/ Rehabilitation of Fish Processing Plant</b>	This project intends to establish units/ industry for the processing, packaging, storage and distribution of shellfish.	Govuro, Inhassoro and Inhambane	Private	2.000.000,00

## MINERAL RESOURCES/ENERGY

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
Energy Production	Land available (10 hectares) for establishing an industrial park in Temane, Inhassoro. The project consists of electric power production using natural gas.	Inhassoro	PPP	Under Assessment
Gas Processing	The project consists of installing a cooking gas processing plant	Inhassoro	PPP	Under Assessment

## INDUSTRY AND COMMERCE

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Plaster production Industry</b>	Installation of plaster production industry for civil construction. Markets: Large Cities (capitals) civil construction area.	Massinga and Vilankulo	Private	Under assessment
<b>Fertilizers Production Plant</b>	Production of fertilizers from guano for domestic and international markets.	Inhassoro	Private	Under assessment
<b>Ciment Production Plant</b>	Availability of (10 hectares) of land for the establishment of industrial and commercial zones, including the existence of raw material (limestone) throughout the province. The project consists of designing and building a ciment production plant.	Vilankulo	Private	Under assessment
<b>Construction of Shopping Centres</b>	Designing and construction of shopping centres. 3,5 hectares of land available in Vilankulo and 100 hectares of land available in the Municipalities of Inhambane and Maxixe.	Municipalities of Inhambane, Vilankulo, Maxixe, Massinga and Quissico	Private	Under assessment
<b>Construction of Municipal markets</b>	Designing and construction of municipal markets. 100; 10; 10; 3,5 hectares available for the purpose in the above municipalities.	Inhambane, Maxixe, Massinga, Vilankulo and Quissico	PPP	Under assessment

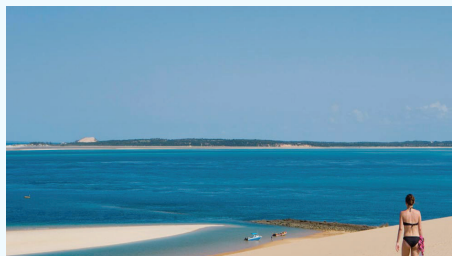

# TOURISM

## TOURISM

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Ancora de Inhassoro</b>	Construction of tourism accommodation establishment which comprises an integrated Resort, composed of a golf courses, airport, shopping mall and spars in an estimated area of 2700 hectares. The purpose is to offer tourism accommodation and an integrated Resort	Inhassoro distirct coast zone	Private	623.000.000,00
<b>Construction of Accommodation Establishments in Dongane</b>	Construction of 10 tourism establishments for accommodation in an estimated area of 300 hectares	Coastal zone of Jangamo District	Private	Under Assessment
<b>Construction of Integrated Resort in Vilankulo</b>	Construction of 40 ecological houses, 20 houses with sea view, 3 modules beach bar, 3 spars, gym, restaurant, conference rooms, in a area of 6 hectares.	Zone of Tourist Interest of Vilankulo	Private	10.000.000,00
<b>Construction of Integrated Resort in Inhassoro</b>	Construction of hotels, villa, Chalets, casino, golfe course, spar, marina, shopping center.	Zone of Tourist Interest of Inhassoro	Private	200.000.000,00

## TOURISM

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Construction of Accommodation Establishments in Magumbo close to the Capricorn Tropical line</b>	Construction of high standard accommodation establishment (3-5 stars or more) in a prime area for tourism development. This area is in the process of being declared as zone of touristic interest ), and preparation of its structure plan	Morrumbene	Private	Under Assessment
<b>Camping Site at Pomene National Reserve</b>	Construction of support infrastructure such as restaurant, reception, challets, car park for campers, on an estimated area of 5 hectares	Massinga	Private	Under Assessment
<b>Construction of Accommodation Establishments in the Chibanhane Coastal Zone</b>	Construction of high standard tourist accommodation facilities (3-5 stars or more) in a prime area for tourism development.	Massinga	Private	Under Assessment
<b>Construction of Accommodation Establishments at Nhamacurrane Lagoon</b>	Construction of accommodation establishment and leisure facilities such as canoeing	Vilankulo	Private	Under Assessment

## TOURISM

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Construction of a Business Centre</b>	Availability of 220,9727 hectares for the construction of a Business Centre, comprising conference rooms, a golf course, a five star hotel and a restaurant.	Vilankulo	Private	Under Assessment
<b>Construction of Accommodation Establishment at Manhikeny Archaeological Station</b>	The area has a great historical and cultural potential with vestiges of Arab commercial settlements and trade between the coastal and inland (Great Zimbabwe). The project involves the construction of an accommodation facility with a maximum capacity of 20 rooms, a typical restaurant and bar , including a souvenirs shop.	Vilankulo	Private	Under Assessment
<b>Construction of Accommodation Establishments in Ligogo</b>	Construction of 6 accommodation establishments in na estimated land of 60 hectares	Coastal zone of Jangamo District	Private	Under Assessment
<b>Construction of Accommodation Establishments at Rocha Beach</b>	Construction of high grade accommodation establishments for tourist accommodation (3 to 5 or more stars. Land área: 260 hectares	Inhambane city	Private	Under Assessment

## TOURISM

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Construction of Accommodation Establishment in Chigamane</b>	Construction of an accommodation establishment in an estimated area of 4,78 hectares	Vilankulo	Private	Under Assessment
<b>Construction of Tourism Establishments on the Marginal of Vilankulo</b>	Construction of entertainment establishment, food and beverages facilities.	Vilankulo	Private	Under Assessment
<b>Construction of Accommodation Establishment in the settlements of Vuca and Chibo</b>	Construction of accommodation facilities in an area of about 340 hectares.	Inhassoro	Private	Under Assessment
<b>Construction of Accommodation Establishment in Ngodje Beach</b>	Construction of touristic accommodation facilities	Govuro	Private	Under Assessment
<b>Construction of Accommodation Establishments in the settlement of Nhanculangwe</b>	Construction of accommodation and catering facilities in na area of 25 hectares	Panda	Private	Under Assessment
<b>Construction of Accommodation Establishments Macavelane</b>	Construction of accommodation and catering facilities & an animal farm: 3.000 hectares	Panda	Private	Under Assessment
<b>Construction of Accommodation Establishments in Tsenane</b>	Construction of accommodation and catering facilities	Funhalouro	Private	Under Assessment
<b>Business Partnership for Exploration of Coconut Bay Resort</b>	The project consists of promoting a business partnership for the exploration of a tourist resort known as Coconut Bay, with 23 beach houses, restaurants, multipurpose hall for events, beach bar, mini bar, convenience store, office, warehouses, houses for workers, automatic generator (80KVA), water holes, national grid energy, park for camping and reception. The project cover an area of 24 hectares, of which 10 hectares corresponds to the area planted and 14 hectares corresponds to an area not yet explored	Jangamo	Private	4.000.000,00

## TRANSPORT AND COMMUNICATIONS

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Maritime Transport</b>	Purchase of boats and ferry boat for passenger and vehicle transportation.	Inhambane/Maxixe (3,5 miles),	Private	300 000 ,00
	Potential market: 2.000.000 passengers/year (Inhambane/Maxixe/); 500.000 passengers (Inhassoro/ Bazaruto Island)	Inhassoro/ Bazaruto Island (24 miles)	Private	100 000,00
<b>Road Transport</b>	Purchase of buses for passengers and cargo transport	Inhambane	PPP	Under Assessment
<b>Construction of passengers and cargo terminal</b>	There is a great flow of passengers' transport without terminals and infrastructure for its users, mainly due to tourism. The project consists of construction of terminal infrastructures with buildings for various business services.	Districts of Massinga, Maxixe, Inhambane and Inharrime	PPP	Under Assessment

## PUBLIC WORKS AND HOUSING

PROJECTS	DESCRIPTION	LOCALIZATION	TYPE OF INVESTMENT	ESTIMATED INVESTMENT(US\$)
<b>Construction of Road N222, linking Mapinhane/Pafuri (with a bridge across River Limpopo)</b>	Design and construction of the N222 road, connecting the Republic of South Africa and the provinces of Gaza and Inhambane, which will reduce the actual distance to 517 km of asphalted road.	Provinces of Inhambane (Districts of Vilankulo, Inhassoro, Mabote) and Gaza (Districts of Chigubo and Chicualacuala)	PPP or Financing	705.570.000,00
<b>Bridge Connecting Maxixe - Inhambane</b>	Design and construction of a bridge connecting Inhambane and Maxixe with about 5.000m long 3.000m wide, with access viaduct of 1.020m to the East, and 980m to West.	Inhambane and Maxixe	PPP or Financing	125.161.290,32
